

Airl serves me as a resident of my local community by providing positive, uplifting music, national information, and a sense of a larger community. It is the only station to which I listen at home, at work and in my car. If Airl were displaced by a LPFM broadcaster providing other programming, I would no longer have a radio station that meets my needs of providing alternative Christian music on my radio. There has never been a station like Airl in my local area, and I cannot imagine living my life without it.

The service provided by Airl is in the public interest because it reminds me and my fellow listeners that we are not alone - we are a part of a national and international community of listeners who worship and grow together. You cannot get that kind of community with a LPFM broadcaster. Please do not allow LPFM broadcasters to take priority over current FM translator service!
